SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) are scaling up their response to this incident, as more cases have been detected.
- CDFA has confirmed that there are no commercial premises currently involved.
- CDFA has confirmed there is no public health risk due to this virus.
- Cal OES Southern Region continues to assist CDFA in identifying a facility to expand operations, as the current Incident Command Post (ICP) is too small for the current number of responders and supplies.
 - The three day weekend delayed obtaining a facility.
 - CDFA prefers to have the facility in the immediate area of the CDFA district office, located in the City of Ontario, San Bernardino County.
 - The Cal OES Southern Region Agency Representative (AREP) obtained a list of facilities from San Bernardino County Real Estate Services. CDFA has expressed interest in some of the facilities on the list. Appointments will be made on Tuesday 05/29/18, to inspect the facilities.
 - An inquiry will also be made on Tuesday 05/29/18, with the California Department of General Services (DGS) to locate available facilities in the area.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will monitor the incident through the holiday weekend.

Deployment

- One (1) Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- One (1) Cal OES Logistics Section Chief deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

No 911 Outages	No 911 Outages	No 911 Outages

911 Outages/Remote/Community Isolations:

Cal OES Southern Region

Jacumba Central Office, San Diego County

On 05/27/18 at 2146 hours, the California State Warning Center (CSWC) was notified by the Cal OES 911 Branch that customers served out of the Jacumba California Central Office in the San Diego Area were unable to make 911 calls due to a network event.

- 703 access lines were affected.
- San Diego County dispatches for this area and was advised of the outage.
- The isolation has been cleared.
- While active and functional, the affected OC48 is operating in simplex mode and requires a card replacement, which will take place today, 05/28/18.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Memorial Day will be the hottest day of the week, with highs in the 90s to near 100 in the Valley.
- A slight chance of afternoon and evening thunderstorms again on Memorial Day over the higher elevations of the Sierra Nevada.

WEATHER SYNOPSIS BY REGION

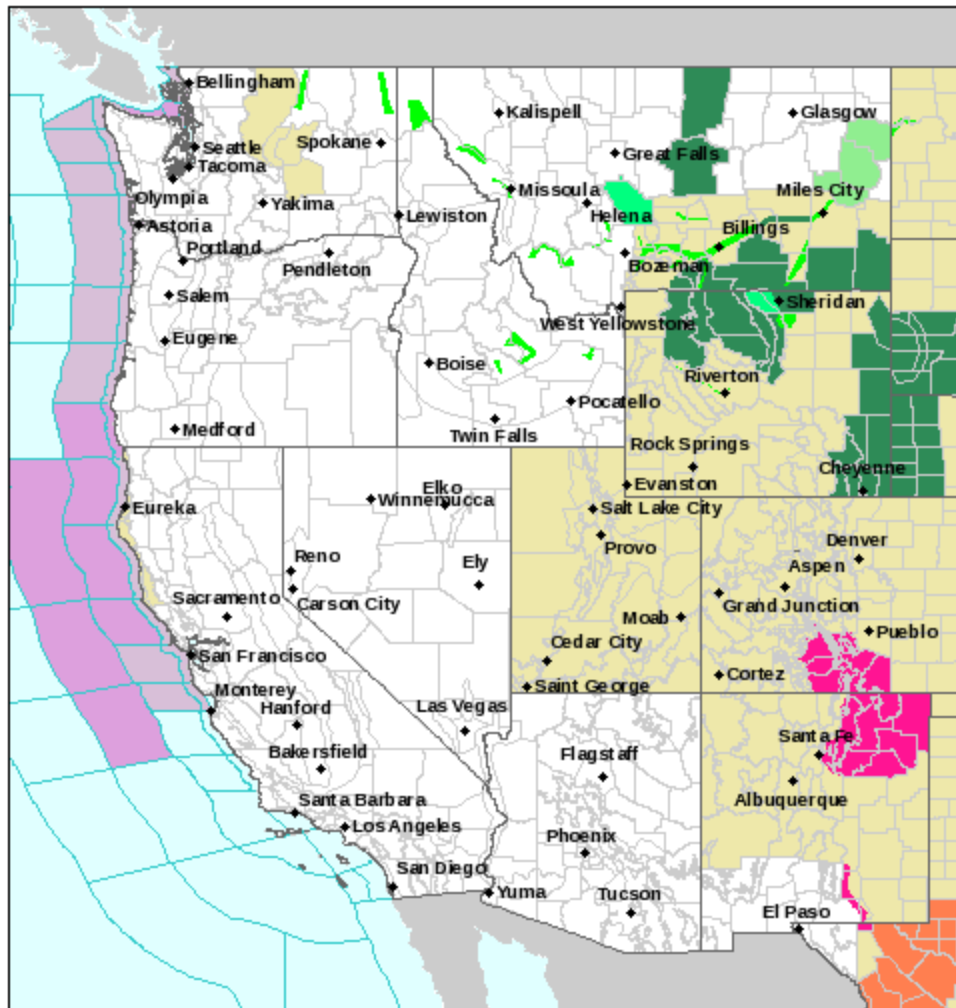

NORTHERN CALIFORNIA

A high pressure ridge will be over the region today and produce the warmest weather so far this year. Areas SE of Lake Tahoe may see a few showers or isolated thunderstorms, but the majority of the region will be sunny today. Temperatures will be 10-15 degrees above normal and minimum afternoon relative humidity (RH) readings will be 10-20% in the warmer inland valleys today. N-NE surface winds will gust to 20-25 mph this morning, especially in wind-prone areas from the western Sierra slopes to the coastal range and continue at lighter speeds this afternoon through early Tuesday. On Tuesday conditions will begin to moderate as the next low pressure trough approaches the region. The trough will produce near normal temperatures and higher humidity through next weekend. SW-W winds will increase each afternoon, with peak gusts near 30 mph along the coast, through the delta and eastern Bay Area, and east of the crest for several days. It will also bring a return of a daily chance of afternoon showers and thunderstorms in the mountains into next weekend.

SOUTHERN CALIFORNIA

A weak ridge of high pressure over California will bring near to a little above normal temperatures through Tuesday, with 70s to low 80s across the mountains and mid 80s to mid 90s in the valleys. Minimum humidity will be mainly 20-40% away from the deserts through Tuesday. Isolated afternoon showers and thunderstorms will form over the Sierra Crest through Tuesday. Winds will be light through Tuesday. A Pacific trough will bring much cooler temperatures and an increase in humidity to the region Wednesday and Thursday. This trough will also cause westerly winds of 20-30 mph with gusts to 50 mph to surface across the desert passes Wednesday and Thursday. The marine layer will become deep, with morning low clouds and fog making it over the lower coastal mountain slopes Thursday and Friday. The trough will weaken bringing a warming and drying trend Friday through this weekend. Temperatures will warm to around normal this weekend.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46891, 05/28/18, 0300 hours:** Contra Costa Sheriff's Office (CCSO) requested one trailing and two area search canine teams for an active, at-risk missing person search. The missing person was a 65 year old male with dementia-type symptoms from a traumatic brain injury. He was unfamiliar with the area and had been missing since 2330 hours the previous evening. The Cal OES Law Enforcement Branch (LEB) Canine Coordinator was notified and canine teams were requested to respond immediately to the CCSO Incident Command Post. **UPDATE: 0420 hours:** CCSO reported that the missing person had been located and a rescue was underway. Canine teams were canceled. **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
